# HUATAO Forming Belt Technical Data

Matte TPU forming belt for conveying the mat toward the pre-press. Check the installed width, length and pulley diameter.

| Parameter | Listed value |
| --- | --- |
| Model | HT-FB001 |
| Surface | Matte |
| Surface material | TPU |
| Bottom side | Fabric |
| Color | White |
| Structure | Single layer |
| Thickness | 1.75mm |
| Min pulley diameter | 15 mm |

## What to check before ordering

Check installed width and length, belt thickness and pulley diameter. Confirm the joint, hardness and operating temperature on the current specification before ordering.
