# HUATAO Bunker Belt Technical Data

Smooth PVC belt for bunker feed. Confirm the installed dimensions, longitudinal profiles and joint before ordering.

| Parameter | Listed value |
| --- | --- |
| Model | HT-LC001 |
| Surface Detail | Smooth |
| Bottom Side Detail | Fabric |
| Material - Surface | PVC |
| Color | Green |
| Number of Fabrics | 3 |
| Thickness | 4.0mm |
| Min pulley diameter | 100 mm |
| Tensile force for 1% elongation per unit of width | 18 N/mm |
| Hardness Top Side | 80 Shore A |
| Operating Temperature Admissible (Continuous) | -15/+80 °C |
| Anti-static | Yes |
| Transversal stability | Yes |
| Attended Mode | Clipper/Z Splice |
| Other | With longitudinal profiles |

## What to check before ordering

Check the installed width and length, the position of the profiles, the smallest pulley and whether the belt uses a clipper joint or a Z-splice.
